# Medical Furniture Solutions

Designed for Clinical Efficiency, Safety & Continuity of Care

## Over View:

Healthcare environments demand furniture that goes beyond form and function. Our **Medical Furniture Solutions** are thoughtfully specified to support **clinical workflows, patient safety, caregiver efficiency, and long-term durability** across critical care units, wards, emergency areas, OPDs, and obstetrics suites.

We assist hospitals and healthcare facilities in **selecting, customising, supplying, and integrating** medical furniture that aligns with clinical intent, regulatory requirements, and operational realities.

[Type here]

## Why Our Medical Furniture Solutions

- Clinically driven specifications, not catalogue-driven selling
- Optimised for ICU, ward, emergency, OPD, and OB/Gyn workflows
- Multiple configuration options (manual, motorised, premium)
- Focus on safety, ergonomics, infection control, and durability
- Prompt delivery, after-sales support, warranty, AMC, and spares availability

## Our Medical Furniture Portfolio

### ICU Bed

Critical care beds form the backbone of ICU infrastructure. Our ICU beds are specified to support **advanced patient positioning, emergency response, and caregiver access**, while maintaining robustness for continuous operation.

### Key ICU Bed Configurations

- Three-function ICU beds
- Five-function motorised ICU beds
- Seven-function ICU beds
- Manual and electric variants
- Multiple side-rail and head/foot panel options

### Featured Product: 5-Function Motorized ICU Bed – Premium

[Type here]

Designed for high-dependency and intensive care environments, this bed offers precise patient positioning with intuitive controls for nursing efficiency.

## Key Functional Highlights

- Motorised backrest, knee-rest, height, Trendelenburg & reverse Trendelenburg
- Dual-side patient control panels and nurse control panel
- Angle indicators for critical positioning awareness
- Single-key CPR / zero position for emergencies
- Central locking castors with corner buffers

## Headline Technical Specifications

- Backrest tilt: up to 75°
- Knee-rest tilt: up to 35°
- Height range: approx. 510–750 mm
- Trendelenburg / Reverse: up to 12°

## Standard Accessories

- IV pole with multi-position mounting

[Type here]

- Urine bag holders
- Polymer moulded side rails
- Manual CPR levers

## Room & Ward-Care Beds and Products

Ward and room-care furniture must balance patient comfort, caregiver access, and cost efficiency. Our range is suited for general wards, private rooms, and semi-critical care areas.

### Product Range

- Fowler beds (manual & semi-position)
- Bystander beds
- Paediatric beds
- Bedside lockers
- Over-bed tables

### Featured Product: Fowler Bed – Manual Premium

#### Economy Fowler Hospital Beds

[Type here]

A reliable solution for wards and step-down care, offering smooth manual articulation and durable construction.

### Key Highlights

- Two-function manual crank operation
- Polymer moulded head and foot panels
- Collapsible aluminium side rails
- Perforated mattress platform for ventilation

### Headline Specifications

- Backrest tilt: up to 75°
- Knee-rest tilt: up to 35°
- Platform size: approx. 1900 × 900 mm

### Accessories

- IV pole provision
- Urine bag holder
- Lockable swivel castors

## Emergency Transfer, Mobility & Treatment Products

Emergency and recovery furniture must allow **rapid response, safe patient handling, and procedural flexibility.**

### Product Range

- Emergency recovery trolley (economy & premium)
- Stretcher trolley
- Wheelchairs

[Type here]

## Featured Product: Emergency Recovery Trolley – Premium

Designed for emergency rooms and recovery areas where rapid positioning and patient transfer are critical.

### Key Highlights

- Hydraulic height adjustment (foot-operated)
- Backrest and Trendelenburg positioning
- X-ray permeable stretcher top
- SS drop-down side railings

### Headline Specifications

- Height range: approx. 480–770 mm
- Backrest tilt: up to 75°
- Trendelenburg / Reverse: up to 12°

[Type here]

## Accessories

- IV pole provisions
- Oxygen cylinder cage
- Cassette tray

# OPD / Examination Room Products

OPD furniture must ensure patient comfort, clinician ergonomics, and integrated storage in limited spaces.

## Product Range

- Examination couch (standard)
- Examination couch (OB/Gyn)
- Examination tables

## Featured Product: Examination Couch – Economy

[Type here]

A practical solution for OPDs, clinics, and diagnostic rooms.

### Key Highlights

- Adjustable headrest with pneumatic support
- Fixed PU mattress with high-density cushioning
- Integrated storage drawers and cabinets
- Inbuilt step stool

## Obstetrics & Gynaecology Treatment Products

OB/Gyn furniture is designed to support safe delivery, patient comfort, and clinician access during critical procedures.

### Product Range

- Delivery tables (standard & premium)
- LDR beds (manual & motorised)

### Featured Product: LDR Bed

[Type here]

An integrated solution for labour, delivery, and recovery in a single care environment.

### Key Highlights

- Multi-section mattress platform
- Motorised backrest, height & Trendelenburg control
- Polymer safety side rails
- Central locking castors

### Accessories

- Lithotomy rods and crutches
- Collection tray
- IV pole
- Hand grips

### Customisation, Support & Lifecycle Services

- Configuration customisation based on clinical needs
- Colour, material, and accessory options
- Installation and commissioning support
- Warranty, AMC, and spare parts availability
- Responsive after-sales service
